## Summary

Detail-oriented Frontend Developer with strong foundations in modern web technologies and responsive design. Skilled in building scalable, user-friendly interfaces using React.js and modern CSS frameworks. Experienced in real-world development environments through internships and hands-on projects, with a focus on clean code, performance optimization, and seamless user experience.

## Skills

**Languages:** HTML5, CSS3, JavaScript, Java, SQL

**Frameworks & Libraries:** React.js, Tailwind CSS, Bootstrap

**Tools:** Git, GitHub, VS Code

**Concepts:** Responsive Design, SPA, DOM Manipulation, Cross-browser Compatibility

## Experience

### Sales Return Operator (Full-Time)

May 2025 – Sep 2025

Aarush Tirupati Enterprise (Pharmeasy Warehouse)

- Managed product return operations, ensuring accurate inventory updates and quality checks.
- Coordinated with logistics and warehouse teams to streamline return workflows.
- Maintained data records and improved operational efficiency through systematic tracking.

### Articulate Developer Intern

Jul 2024 – Feb 2025

LearnKnowDigital

- Developed interactive learning modules including videos and mini-games for e-learning platforms.
- Improved user engagement through dynamic UI elements and optimized front-end performance.

### Junior Developer Intern

Apr 2022 – Sep 2022

Wikience

- Collaborated with development teams to identify and resolve software issues.
- Assisted in implementing practical solutions to improve application performance.

## Projects

### Near & Dear – Cake Delivery Website

- Built a fully responsive cake delivery platform with a clean and intuitive user interface.
- Implemented dynamic features using JavaScript, including product display, navigation, and form validation.
- Applied semantic HTML5 and modern CSS techniques to enhance accessibility and performance.
- Ensured cross-browser compatibility and optimized loading speed.

### Athena Inventory – Inventory Management System

- Developed a single-page application (SPA) for managing inventory operations.
- Used React.js for component-based architecture and efficient state management.
- Designed a responsive UI using Tailwind CSS for consistent user experience across devices.
- Implemented dynamic data handling to improve usability and scalability.

## Education

### Bachelor of Computer Applications (BCA)

2021 – 2024

Swami Vivekananda Institute of Modern Studies

### Higher Secondary

2021

Sodepur High School
